Subject: RE: Data from Filemaker
Attachments: Large engines.xls

Greg,

FileMaker has been decommissioned and the data has been stored in a combination of spread sheets and Oracle databases. If we do have that bit of data it should be somewhere in this attached spreadsheet. I haven't had a chance to look thru the data, but there's a lot to look through. If you can remember a specific FileMaker data element name maybe we can have our IT staff to find it more directly.

Subject: Data from Filemaker

Steve:

Sending this to you since Allen is out. Is there any way to get Production Start dates for Cummins 2011 NRCI engine families? This data is in Filemaker but not the public data. Information is needed for a stockpiling issue we are working on.

Thanks
